EXPERIENCE

Imarticus Learning

May 2025 – June 2025

Android App Development Intern

- Completed a certified internship focused on full-stack Android development using Kotlin, REST APIs and XML.
- Developed a Secure Notes app with style features like rich-text editing, cloud sync, and user authentication.
- Learned Android SDK fundamentals, UI/UX design best practices, and full-stack integration with Firebase services.

PROJECTS

AI Courtroom Simulation Game

- This Project is an AI-driven courtroom simulation in Unity, integrating LLM-based argument generation via Python through REST API and data bridging between C# and Python.
- Key Skills Involved: C#, Unity, Python, AI Integration, Game Design

Event Management Application

- Developed a Flutter-based event planning app with Firebase for authentication and data storage. Implemented an AI-powered recommendation engine using DBSCAN clustering for service bundling.
- Key Skills Involved: Flutter, Firebase, Python, UI/UX Design, Machine Learning

Cricket Game Scorecard

- This project is the back-end of the cricket game, which stores the data of different players, umpires, and the record of the complete match and shows the result accordingly.
- Key Skills Involved: Java, SpringBoot, MongoDB

EDUCATION

VIT Bhopal University, Sehore, Madhya Pradesh

August 2023 – May 2027

Bachelor of Technology in Computer Science (CGPA - 8.51)

VITB University, B.tech 3rd Year

SKILLS

Languages: Java, Python, C++, Kotlin, MySQL, Flutter

Tools: Git, Github, Firebase, Android Studio, Azure
